*******************************************************************************
 In order to pass this lab, your RULE host must have a Web server running that

 1) Web server is running and serves pages
 2) Attempt to access https://trusted.tne30024 should fail due to not recognising root certificate
 3) Attempt to access https://trusted.tne30024 should succeed with provided root certificate
 4) Download page should match expected HTML

*******************************************************************************

CHECKING DNS CONFIGURATION
==========================
Querying for (trusted.tne30024) using DNS server (136.186.230.103) - Correct answer (136.186.230.103)
Using domain server:
Name: 136.186.230.103
Address: 136.186.230.103#53
Aliases:

trusted.tne30024 is an alias for rule103.tne30024.
rule103.tne30024 has address 136.186.230.103
Test Result: PASSED
